EDUCATION

Gandhi Engineering College
Bachelor of Technology in Computer Science

Bhubaneswar, Odisha
2020 - 2024

EXPERIENCE

Software Developer — Chetu Inc, Noida, Uttar Pradesh January 2024 - July 2024

- Full-time PHP Developer with hands-on experience in web development technologies, including PHP, Laravel, Node.js for backend development, and React for front-end development.
- Developed a shopping cart website as a PHP Developer Trainee using Laravel, Blade, JavaScript, AJAX, and Tailwind CSS, significantly improving both backend and frontend skills.

Software Developer Intern — Web Bocket, Bhubaneswar, Odisha April 2023 - August 2023

- Built a full-stack doctor website using the MERN stack, featuring payment processing, appointment booking, and an admin panel.
- Collaborated with team members to optimize project efficiency and teamwork.

PROJECTS

Projex | React, Node.js, MongoDB, Google OAuth, Render, Tailwind, Hostinger August 2024 - September 2024

- Developed and maintained Projex, a project management system, enabling users to store and organize project ideas with related information through an intuitive, user-friendly interface.
- Implemented key features such as project tracking, idea management, and google login, improving user engagement and streamlining project workflows.

Prince Sahni Portfolio | React, Express.js, Node.js, MongoDB, Git, Github, Render, Vercel May 2024 - July 2024

- Created a portfolio website showcasing skills, education, projects, and blogs. The site also features articles on coding topics, document courses, YouTube videos for programming, and various learning resources.
- Utilized React for the front-end and Express.js, Node.js, and MongoDB for the backend. Deployed the front-end on Vercel and the backend on Render, with version control managed via Git and GitHub.

Aryans Infrastructure | React, Express.js, Email.js, Javascript, Git, Github May 2023 - June 2023

- Developed a company website with React and Email.js, hosted on Hostinger, showcasing projects and allowing user feedback and inquiries.
- Managed version control with Git and GitHub. URL-<https://aryaninfrastructure.com/>

Hierarchy Management System | PHP, Laravel, Ajax, JavaScript, Blade, Tailwind Jan 2024 - Feb 2024

- Developed a hierarchy management system for employee ladder management using PHP and Laravel for backend, and Blade for templating.
- Enhanced user experience with JavaScript and AJAX for dynamic data handling and interactive features.

Laravel E-commerce | Java, XML, Firebase, Android Studio, Google Play Console June 2022 – September 2022

- Built an e-commerce shopping cart website using Laravel, Blade, AJAX, and Tailwind CSS for a responsive, interactive user experience.
- Integrated Razorpay for payment processing and Twilio for SMS notifications, with version control managed via Git.
